Professional Summary

Data Analyst with over 5 years of experience transforming complex datasets into actionable business insights across the Middle East and Europe. Experienced in building executive dashboards, automated reports, and analytical solutions using Excel, Python, SQL, Power BI, and Tableau. Strong background in business and accounting, with practical experience supporting decision-making across sales, finance, HR, marketing, real estate, retail, and commercial operations.

Work Experience

Data Analyst – SAPAC (Saudi Pan Kingdom) **Mar 2026 – present**

On site, Riyadh, KSA

- Developed executive-level dashboards and automated reporting solutions using Power BI, Excel, and Python to monitor workforce, payroll, medical insurance, and operational KPIs.
- Cleaned, transformed, and consolidated complex HR and business datasets from multiple sources, improving data quality and reporting reliability.
- Created dynamic Excel reports with advanced formulas, slicers, KPI cards, and visual summaries to support daily and monthly management reporting.
- Designed Power BI dashboards that delivered actionable insights into employee status, salary distribution, workforce segmentation, and project performance.
- Worked closely with HR, finance, and management teams to translate business requirements into accurate reports, dashboards, and data-driven recommendations.

Data Analyst – Pitch Marketing Group **Nov 2025 – Feb 2026**

Remote, London, UK

- Analyzed large datasets to identify trends, anomalies, and opportunities for business improvements.
- Streamlined data cleaning, analysis, and visualization processes using Power BI and Power Query, improving clarity of business insights.
- Managed the data extraction, transformation, and loading processes to maintain data integrity across systems.
- Prepared detailed reports summarizing findings from data analyses, highlighting key recommendations for strategic planning.

Data Analyst – Confidential Company **Dec 2024 – Sep 2025**

Remote, Riyadh, KSA

- Cleaned, analyzed, and visualized data using Python, SQL, and Power BI to generate actionable business insights.
- Analyzed large datasets to identify trends, anomalies, and opportunities for business improvements.
- Managed the data extraction, transformation, and loading processes to maintain data integrity across systems.
- Prepared detailed reports summarizing findings from data analyses, highlighting key recommendations for strategic planning.

Remote, Dubai, UAE

- Utilized Python, SQL, and Power BI to clean and analyze data, producing visualizations that supported business insights.
- Dubai
- Analyzed large datasets to identify trends, anomalies, and opportunities for business improvements.
- Managed the data extraction, transformation, and loading processes to maintain data integrity across systems.
- Prepared detailed reports summarizing findings from data analyses, highlighting key recommendations for strategic planning.
